

Nouns

A noun is a person, a place, or a thing;
It can be an idea that makes you wanna sing!
People, places, things galore;
Nouns are all around us - go on and explore!

Common nouns are everywhere, just look around and see;
There's a dog, a tree, a book, and a bee!
Nouns are the things everywhere in sight,
From the sun in the sky to the moon in the night.

A school, a home, they're found in every town,
Like teachers, desks, nouns are all around.
Pencils, books, the sky up above.
Nouns can be ideas, like honesty and love.
