

Capitalization

Lyrics by GrammarFlip

Capitalize those letters high and strong;
Capitalize letters to make words belong.
Names, titles, days of pride;
Show some respect when you write - don't let them slide!

The first word in every sentence you should capitalize
And the names of people, now let's be wise.
If it's a title, a position, or a person's role,
Cap it up to give them control!

Capitalize those letters high and strong;
Capitalize letters to make words belong.
Names, titles, days of pride;
Show some respect when you write - don't let them slide!

Streets, cities, and name brands you trust;
Capitalization makes them important to us.
When they're regions like the North, the South, the East, and the West,
Capitalize them all and pass the test!

Capitalize those letters high and strong;
Capitalize letters to make words belong.
Names, titles, days of pride;
Show some respect when you write - don't let them slide!

Days of the week and months like August;
Capitalize them all – you know it's a must,
But seasons like winter, spring, summer, and fall,
Keep them all lowercase – come on y'all!

Capitalize those letters high and strong;
Capitalize letters to make words belong.
Names, titles, days of pride;
Show some respect when you write - don't let them slide!
